

DS/EN 1992-3 DK NA:2010

National Annex to

Eurocode 2: Design of concrete structures – Part 3: Liquid retaining and containment structures

Foreword

In connection with the incorporation of Eurocodes into Danish building legislation to replace the Danish structural codes of practice, this National Annex was prepared in 2010 to implement this Eurocode in Denmark.

Scope

This National Annex lays down the conditions for the implementation of this Eurocode.

Contents

This National Annex specifies the national choices prescribed in Denmark. Where this Eurocode makes reference to EN 1992-1-1, the national choices in DS/EN 1992-1-1 DK NA and associated addenda are applicable.

The national choices may be in the form of nationally applicable values, an option between methods given in the Eurocode, or the addition of complementary guidance.

This National Annex includes:

- Clauses where national choices have been made
 - All clauses where national choices have been possible.
-

Overview of possible national choices

The list below identifies the clauses where national choices are possible and the applicable/not applicable informative annexes.

Clause	Comment
7.3.1 (111)	Unchanged
7.3.1 (112)	Unchanged
